Review report on condensed interim financial information to the directors of Arab Bank for Investment and Foreign Trade PJSC

Introduction

We have reviewed the accompanying condensed interim statement of financial position of Arab Bank for Investment and Foreign Trade PJSC (the "Bank") as at 31 March 2022 and the related condensed interim statements of comprehensive income, changes in equity and cash flows for the three month period then ended and other explanatory notes. The directors are responsible for the preparation and presentation of this condensed interim financial information in accordance with International Accounting Standard 34 – Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity." A review of condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information is not prepared, in all material respects, in accordance with IAS 34.

Arab Bank for Investment and Foreign Trade PJSC

Notes to the condensed interim financial information for the three month period ended 31 March 2022 (unaudited)

1 Legal status and principal activities

Arab Bank for Investment and Foreign Trade PJSC (the “Bank”) was incorporated in the Emirate of Abu Dhabi by Union Decree No. 50 of 1976. It is registered as a Public Joint Stock Company in accordance with Federal Law No (8) of 1984 (as amended), and UAE Federal Law No. 2 of 2015, as amended. The address of the Bank’s registered office is P.O. Box 46733 Abu Dhabi, United Arab Emirates.

The Bank is engaged in commercial and retail banking activities and carries out its operations solely in the United Arab Emirates through its seven branches (31 December 2021: seven branches).

The Bank’s Islamic banking activities are conducted in accordance with Islamic Sharia’a laws issued by the Sharia’a Supervisory Board of the Bank.

On 20 September 2021, the UAE Federal Decree Law No. 32 of 2021 ("Companies Law") was issued and came into effect on 2 January 2022 which repealed the UAE Federal Law No. 2 of 2015. The Bank has 12 months from 2 January 2022 to comply with the provisions of the UAE Federal Decree Law No 32 of 2021.

The financial statements of the Bank as at and for the period ended 31 March 2022 and for the year ended 31 December 2021 are available upon request from the Bank’s registered address at P. O. Box 46733, Abu Dhabi, United Arab Emirates.

2 Summary of significant accounting policies

2.1 Basis of preparation

The condensed interim financial information has been prepared on a going concern basis and in accordance with IAS 34 *Interim Financial Reporting* and the requirements of the applicable laws in the UAE. They do not include all of the information required for full annual financial statements as required under IFRS. This condensed interim financial information should be read in conjunction with the financial statements of the Bank as at and for the year ended 31 December 2021 which were prepared in accordance with International Financial Reporting Standards (“IFRS”). The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

The condensed interim financial information is presented in United Arab Emirates Dirhams (“AED”) which is the functional currency of the Bank, rounded to the nearest thousand.

The results for the three month period ended 31 March 2022 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2022.

Arab Bank for Investment and Foreign Trade PJSC

Notes to the condensed interim financial information for the three month period ended 31 March 2022 (unaudited) (continued)

2 Summary of significant accounting policies (continued)

2.2 New and amended standards adopted by the Bank

In the current period, the Bank has applied the following amendments to IFRSs issued by the International Accounting Standards Board ("IASB") that are mandatorily effective for an accounting period that begins on or after 1 January 2022. The application of these amendments to IFRSs has not had any material impact on the amounts reported for the current and prior periods but may affect the accounting for the Bank's future transactions or arrangements.

- Property, Plant and Equipment: Proceeds before intended use – Amendments to IAS 16
- Reference to the Conceptual Framework – Amendments to IFRS 3
- Onerous Contracts – Cost of Fulfilling a Contract - Amendments to IAS 37
- Annual Improvements to IFRS Standards 2018–2020

Other than the above, there are no other significant IFRSs, amendments or interpretations that were effective for the first time for the financial year beginning on or after 1 January 2022.

2.3 Standards issued but not yet applied by the Bank

The following standards and interpretations have been issued but are not mandatory for annual reporting periods beginning on 1 January 2022. Management anticipates that these amendments will be adopted in the initial period when they become mandatorily effective. The impact of these standards and amendments is currently being assessed by management.

Title and key requirements	Effective for annual periods beginning on or after
Disclosure of Accounting Policies – Amendments to IAS 1 and IFRS Practice Statement 2	1 January 2023

The IASB amended IAS 1 to require entities to disclose their *material* rather than their *significant* accounting policies. The amendments define what is 'material accounting policy information' and explain how to identify when accounting policy information is material. They further clarify that immaterial accounting policy information does not need to be disclosed. If it is disclosed, it should not obscure material accounting information.

To support this amendment, the IASB also amended IFRS Practice Statement 2 *Making Materiality Judgements* to provide guidance on how to apply the concept of materiality to accounting policy disclosures.

Definition of Accounting Estimates – Amendments to IAS 8	1 January 2023
---	----------------

The amendment to IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* clarifies how companies should distinguish changes in accounting policies from changes in accounting estimates. The distinction is important, because changes in accounting estimates are applied prospectively to future transactions and other future events, whereas changes in accounting policies are generally applied retrospectively to past transactions and other past events as well as the current period.

Arab Bank for Investment and Foreign Trade PJSC

Notes to the condensed interim financial information for the three month period ended 31 March 2022 (unaudited) (continued)

2 Summary of significant accounting policies (continued)

2.3 Standards issued but not yet applied by the Bank (continued)

Title and key requirements	Effective for annual periods beginning on or after
Classification of Liabilities as Current or Non-current – Amendments to IAS 1	1 January 2023 (deferred from 1 January 2022) *
<p>The narrow-scope amendments to IAS 1 Presentation of Financial Statements clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the entity's expectations or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant). The amendments also clarify what IAS 1 means when it refers to the 'settlement' of a liability.</p> <p>The amendments could affect the classification of liabilities, particularly for entities that previously considered management's intentions to determine classification and for some liabilities that can be converted into equity.</p> <p>They must be applied retrospectively in accordance with the normal requirements in IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors.</p> <p>* Since issuing these amendments, the IASB issued an exposure draft proposing further changes and the deferral of the amendments until at least 1 January 2024.</p>	

3 Judgments and estimates

The preparation of the condensed interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, equity, income and expense. Actual results may differ from these estimates.

In preparing this condensed interim financial information, the significant judgments made by management in applying the Bank's accounting policies and the key sources of estimates uncertainty were the same as those described in the audited financial statements as at and for the year ended 31 December 2021.

Arab Bank for Investment and Foreign Trade PJSC

Notes to the condensed interim financial information for the three month period ended 31 March 2022 (unaudited) (continued)

4 Financial risk management

The Bank's financial risk management objectives and policies are consistent with those disclosed in the annual financial statements as at and for the year period ended 31 December 2021.

Exposure to credit risk

The Bank measures its exposure to credit risk by reference to the gross carrying amount of financial assets less amounts offset, interest suspended and impairment losses, if any. The carrying amounts of financial assets represent the maximum credit exposure.

Credit quality analysis

The following table sets out information about the credit quality of financial assets as at 31 March 2022 and 31 December 2021. Unless specifically indicated, for financial assets, the amounts in the table represent gross carrying amounts. For loan commitments and financial guarantee contracts, the amounts in the table represent the amounts committed or guaranteed, respectively.

Arab Bank for Investment and Foreign Trade PJSC

Notes to the condensed interim financial information for the three month period ended 31 March 2022 (unaudited) (continued)

4 Financial risk management (continued)

Impact of Covid-19

Covid-19 and Expected Credit Loss (ECL)

COVID-19 continues to disrupt businesses and economic activity in 2022. In response, governments and central banks extended economic support and relief measures (including payment deferrals) launched in 2020 to lessen the impact on individuals and corporates. In determination of Q1 2022 ECL, the Bank has considered potential impact caused by COVID-19 pandemic (based upon available information) and taken into account economic support and relief measures of government and Central Bank. The Bank has also considered the notices issued by the Central Bank of UAE with regards to the 'Targeted Economic Support Scheme (TESS)' and 'Treatment of IFRS 9 Expected Credit Loss in the context of Covid-19 crisis' as well as the guidance issued by the International Accounting Standards Board (IASB). The Bank has suitable governance process in place for IFRS 9.

Forward Looking Information

The Bank incorporates forward-looking information into both the assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and the measurement of ECL. The Bank formulates three economic scenarios: a base case, which is the median scenario assigned a 40% probability of occurring (31 December 2021: 40%), and two less likely scenarios, one upside and one downside, each assigned a 30% probability of occurring (31 December 2021: 30%). The same information is used by the Bank for other purposes such as strategic planning and budgeting. External information considered includes economic data and forecasts published by governmental bodies and monetary authorities, and the International Monetary Fund, and selected private-sector and academic forecasters. Periodically, the Bank carries out stress testing of more extreme shocks to calibrate its determination of the upside and downside representative scenarios. The Bank has applied the following Macro Economic Variables for the Corporate portfolio in conditional IFRS 9 analysis with forecast scenarios: Equity (ADX Equity Index) and Oil Price. Had the weightage to the adverse scenario been increased by another 10% with a corresponding decrease of 10% in upside scenario, the impairment loss allowance would increase by AED 3 million at 31 March 2022.

5 Segmental analysis

The Bank operates in one geographical area, the United Arab Emirates, and its results arise largely from commercial and retail banking activities.

Arab Bank for Investment and Foreign Trade PJSC

Notes to the condensed interim financial information for the three month period ended 31 March 2022 (unaudited) (continued)

6 Valuation of financial instruments and other assets

Fair value hierarchy

Recurring and non-recurring fair value measurements

The Bank measures fair value using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted market price (unadjusted) in an active market for an identical instrument. Such instruments are valued by reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted price is readily available, and the price represents actual and regularly occurring market transactions.
- Level 2: Valuation techniques based on observable inputs, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant impact on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

All financial assets and liabilities are measured at amortised cost except for financial assets at fair value through profit or loss and investments at FVOCI and other non-financial assets which are measured at fair value by reference to published price quotations in an active market or from prices quoted by counterparties or through use of valuation techniques.

Fair values of assets and liabilities that are traded in active markets are based on quoted market prices or dealer priced quotations. For all other assets and liabilities the Bank determines fair values using valuation techniques.

Valuation techniques include net present value and discounted cash flow models. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, credit spreads and other inputs used in estimating discount rates. The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument and other assets at the reporting date that would have been determined by market participants acting at arm's length.

Observable prices and model inputs are usually available in the market for listed equity securities. Availability of observable market prices and model inputs reduces the need for management judgement and estimation and also reduces the uncertainty associated with determination of fair values. Availability of observable market prices and inputs varies depending on the products and markets and is prone to changes based on specific events and general conditions in the financial markets.

Arab Bank for Investment and Foreign Trade PJSC

Notes to the condensed interim financial information for the three month period ended 31 March 2022 (unaudited) (continued)

6 Valuation of financial instruments and other assets (continued)

Fair value hierarchy (continued)

Recurring and non-recurring fair value measurements (continued)

The table below analyses recurring and non-recurring fair value measurement of assets at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorised:

	Level 1 AED'000	Level 2 AED'000	Level 3 AED'000	Total AED'000
At 31 March 2022				
Investments at FVOCI	2,201,469	-	14,504	2,215,973
Investment at FVTPL	-	-	17,577	17,577
Investment properties (Note 10)	-	-	312,377	312,377
Property and equipment (Note 12)	-	-	175,723	175,723
Property acquired in settlement of debt (Note 11)	-	-	1,410	1,410
	<u>2,201,469</u>	<u>-</u>	<u>521,591</u>	<u>2,723,060</u>
At 31 December 2021				
Investments at FVOCI	2,265,792	-	14,508	2,280,300
Investment at FVTPL	-	-	17,577	17,577
Investment properties (Note 10)	-	-	377,768	377,768
Property and equipment (Note 12)	-	-	175,807	175,807
Property acquired in settlement of debt (Note 11)	-	-	6,910	6,910
	<u>2,265,792</u>	<u>-</u>	<u>592,570</u>	<u>2,858,362</u>

There have been no transfers of assets between Level 1 and Level 2 or any transfers into or out of Level 3 of the fair value hierarchy during the period (Year ended 31 December 2021: Nil).

Although the Bank believes that its estimates of fair values are appropriate, the use of different methodologies or assumptions could lead to different measurements of fair values.

10 Investment properties

	(Unaudited) 31 March 2022 AED'000	(Audited) 31 December 2021 AED'000
Freehold land and building	583,732	708,530
	<u>583,732</u>	<u>708,530</u>
<i>Less: Allowance for impairment</i>	<i>(271,355)</i>	<i>(330,762)</i>
	<u><u>312,377</u></u>	<u><u>377,768</u></u>

Towards the end of 2021, the Bank carried out an evaluation exercise of the investment properties through qualified, independent external valuers, the valuation methodologies used by the external valuers include:

- Direct Comparable method: This method seeks to determine the value of the property from transactions and asking prices of comparable properties within the same and comparable communities applying adjustments to reflect differences to the subject property.
- Investment method (Income Capitalization & DCF): The Income Capitalization Method has been used to assess the value of the property by capitalising the net operating income of the property at an appropriate yield after allowing for appropriate maintenance and vacancies. A net yield range of 6% to 8.5% (2021: 4 to 5%) has been applied which reflects what an investor would expect for an investment of the duration of the interest being valued for the respective properties.

A further independent valuation has not been performed as of 31 March 2022 and management believes that fair value on the reporting date is not materially different from carrying value.

The Bank has disposed investment properties of AED 62.7 million during the three month period ended 31 March 2022.

16 Capital and reserves

a) Share capital

The authorised, issued and paid up share capital as at 31 March 2022 is comprised of 75,000 thousand ordinary shares of AED 20,000 each (31 December 2021: 75,000 thousand ordinary shares of AED 20,000 each).

b) Statutory reserve

As required by Article 239 of the UAE Federal Law No. (2) of 2015, as amended, and the Bank's Articles of Association, 10% of the net profit for each year is transferred to a statutory reserve until this reserve equals 50% of the share capital. The statutory reserve is not available for distribution. Transfers to the statutory reserve are made at year end, if at all.

c) Special reserve

In accordance with Union Law No. 10 of 1980 concerning the Central Bank of the UAE, the Monetary System and Organization of Banking, 10% of the net profit for each year is transferred to a special reserve until this reserve equals 50% of the paid-up share capital. The special reserve is not available for distribution. Transfers to the special reserve are made at year end, if at all.

27 Related party transactions

Identity of related parties

The Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operational decisions. The Bank's shareholding pattern is as follows:

	Shareholding percentage %	
	2022	2021
Emirates Investment Authority	42.28	42.28
Libyan Foreign Bank	42.28	42.28
Banque Exterieur d'Algerie	15.44	15.44

In the normal course of business, the Bank enters into various transactions with its related parties. Banking transactions are entered into with related parties on terms and conditions approved by either the Bank's management or the Board of Directors. The volume of related party transactions, outstanding balances and related expenses and income for the year were as follows:
